Actiontec® 1520

Setting an Administrative Password

Instruction Set

Actiontec is a registered trademark of Actiontec Electronics Inc.

The following instruction set will guide you through the process of setting an administrative password for the Actiontec 1520. Qwest recommends setting an administrative password to secure your modem from unwanted configuration changes.

Setting the Administrative Password

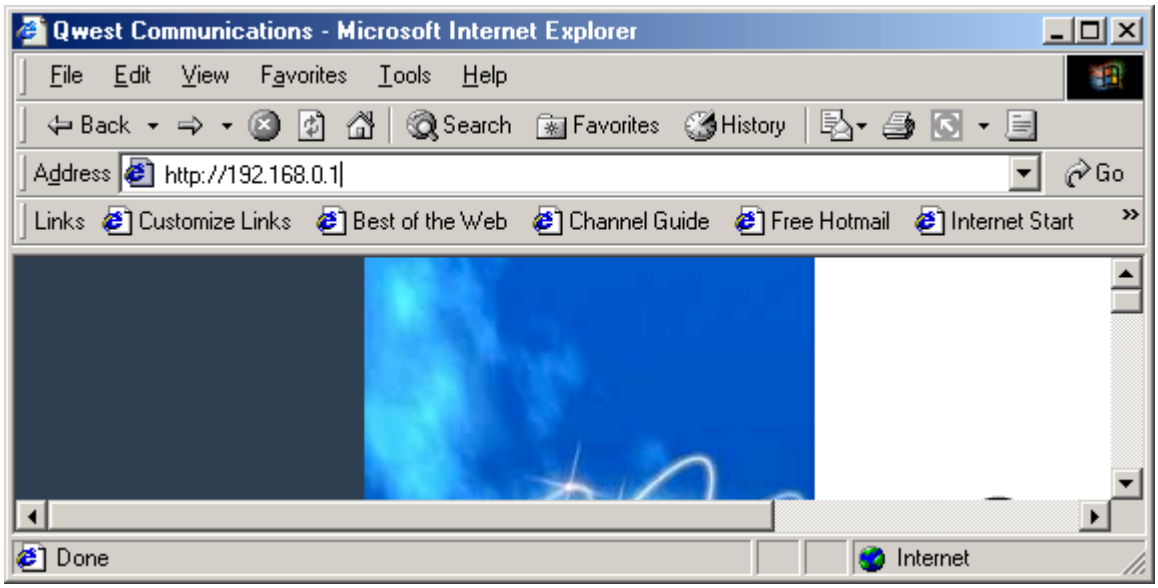
STEP 1

Open your web browser (Internet Explorer® or Netscape® for example).

STEP 2

Type the following URL in the address bar.

http://192.168.0.1



Qwest Communications - Microsoft Internet Explorer
File Edit View Favorites Tools Help
Back Search Favorites History
Address http://192.168.0.1
Go

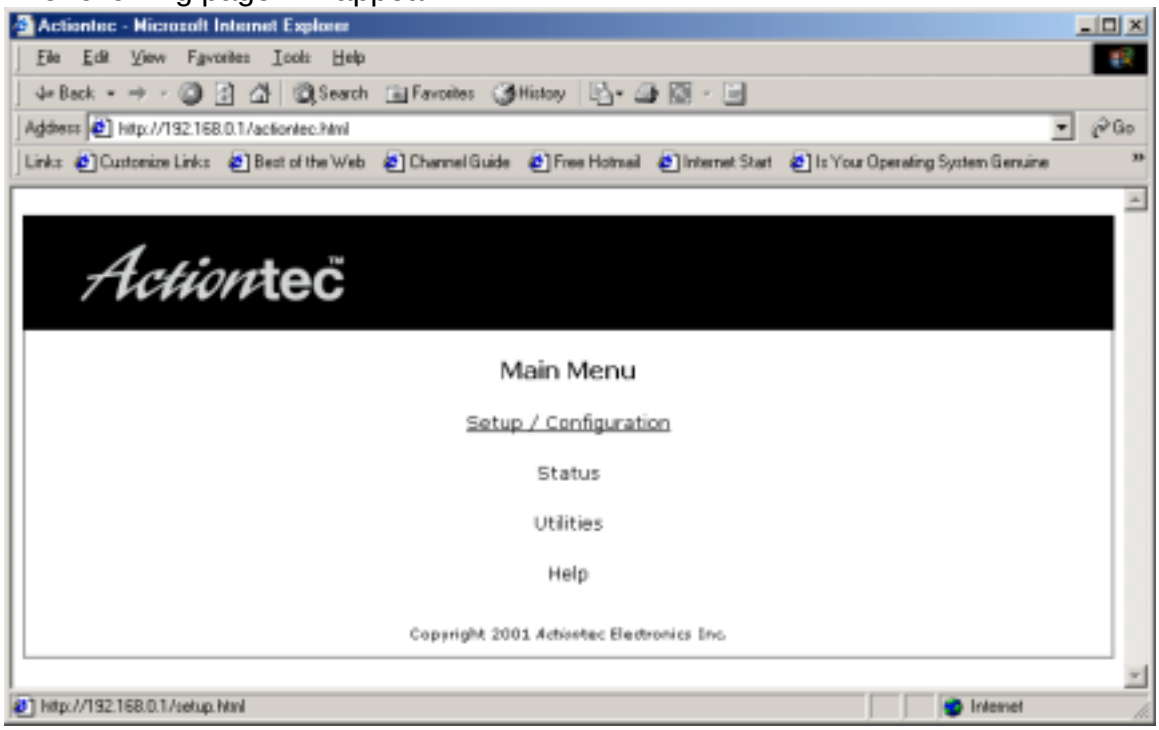
Done
Internet

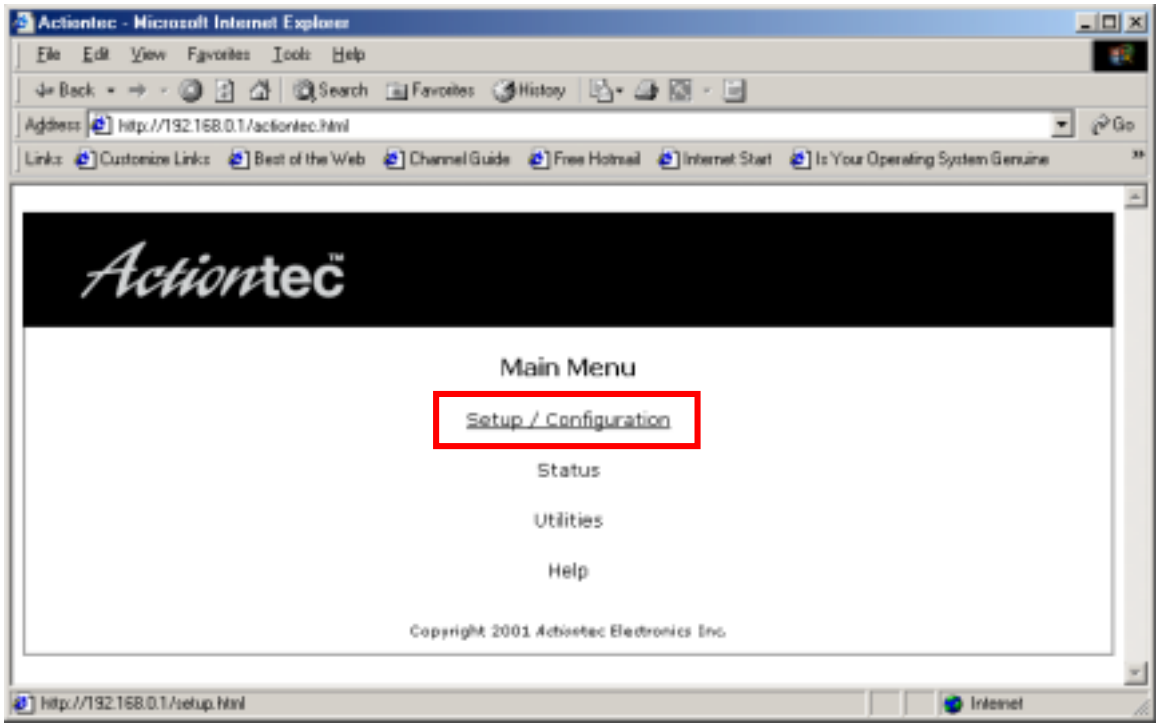
The following page will appear.



NOTE: If the Actiontec Main Menu page does not appear as shown above, please ensure the Ethernet cable is connected correctly.

STEP 3

Click on Setup/Configuration from the Main Menu.



STEP 4

Click on CHANGE ADMIN PASSWORD in the left column.

Set Up / Configuration
This section will guide you through the configuration of your DSL Gateway.
In most cases, only Basic Setup is required. In the event that you can not access the Internet after completing the Basic Setup, it is possible that your Internet Service Provider may require additional configuration.
In this case, use the Advanced Setup process to configure your DSL Gateway by clicking on the Advanced Setup option from the menu to the left.
Please click the "Begin Basic Setup" button below to start the basic setup.
Begin Basic Setup

STEP 5

Enter an admin password in the fields below. Then, select SAVE AND RESTART.

NOTE: Please write down your password in a secure location. You will need the password to access the Actiontec web interface in the future. The predefined user name to use when logging in is “admin” in lower case with your administrator password.

STEP 6

Click SAVE AND RESTART to save the changes and restart the router.
